## Datebook: Eva Lundsager at Van Doren Waxter

BY BLOUIN ARTINFO | AUGUST 12, 2016

Van Doren Waxter presents "Other Night Other Light," an exhibition of works by American artist Eva Lundsager, which runs through August 26 in New York.

The exhibition features 20 watercolor and Sumi ink works on paper, which reside somewhere between representational and abstract landscapes. The displayed paintings approach the classic landscape form, but remain in denial of the reference point by employing multiple disorienting horizon lines and enigmatic forms.

Violent kinetic forces are captured in these works, suggesting atmospheric changes or cosmic reactions. The resulting tension, accentuated by drips, splashes, and a soft palette of blues and yellows, highlights the divide between humans and natural chaos.
